Panasonic is a registered trade mark of Panasonic Corporation of Japan

another innovative airstream product

## »» Panasonic® air conditioning, now controlled by iZone® 310

With our new generation iZone® 310 climate control system, you have complete control over your ducted Panasonic® air conditioning unit, as well as our industry-leading air distribution system, all from one intuitive touch screen interface. Elegant, easy-to-use and exceptionally efficient.

## »» One discreet interface, huge savings

iZone® 310 provides integrated control over your ducted Panasonic® air conditioning units, as well as your Airstream distribution system.

You can fine-tune home-wide air distribution and your air conditioning unit's modes and fan speeds, automatically or manually, from any iZone® touch screen in your home. And with up to 12 consoles and zones throughout your home, that means maximum control, efficiency and savings.

### Master control and temperature-controlled zones

Unlike other systems that aggregate temperature across your home, resulting in wide variations, iZone® 310's master control functionality means you can manage the temperature of your home and the zones within it holistically.

What's more, with temperature sensors on every controller in your home, you can take that control to an even higher level – every room will be at the temperature you want, all the time.

### Precision engineering, BMW-style

iZone® 310 uses the same CAN Bus protocols that Mercedes and BMW use. So, you can rest assured it's as responsive and dependable as it is intuitive, with a measured warranty rate of less than 1%. That's why major Japanese and German brands have asked us to develop control systems for their next generation air conditioning units.

Future functionality  
coming soon...

**Easy on the eye, as well as your pocket**

No ugly wall sensors. No bulky control units. iZone® 310 is an elegant touch screen console that you can customise to suit your home's interior design. Changing the background colours on your screens is as straightforward as choosing the precise temperature you want.

**Simple scheduling for set-and-forget use**

Create nine 'favourite' schedules with the easy-to-use seven-day timer, activating and deactivating modes and the four-setting sleep timer at the touch of a screen.

**Future-proof, for even more flexibility**

Already packed with unique functionality, iZone® 310 is also future-proof, ready for a host of innovations, including our new iPhone app that turns your phone into a controller. You'll also have WiFi, 3G and web-based system control, as well as the option of integration with home automation systems.\*

\*Functionality coming soon...

Touch screen console background colours can be customised to suit your home's interior design.

## » iZone® 310's market-leading features

Intuitive user navigation	✓
Customisable touch screens	✓
Number of zones available	12
Maximum number of screens	12
Airflow adjustment	5% increments

## »» There's a reason we're trusted by leading brands

iZone® 310 is the only integrated air conditioning and distribution control system fully compatible with the leading Japanese brands. And with good reason. At Airstream, we've built a reputation for precision-engineered climate control solutions.

### **Complete confidence and a full 5-year warranty**

As a Western Australian company, we understand Australia's unique climate. But as a locally owned and operated business, it also means we're here for you if you need us – Airstream's owners and founders oversee everything we do, every day, ensuring we maintain the highest quality and service standards.

What's more, because quality is our priority, we're able to offer a full 5-year warranty. This covers every element of our air distribution systems, including your iZone® 310 touch screen consoles.

For more information about **iZone® 310** or our integrated air distribution systems, visit [www.air-stream.com.au](http://www.air-stream.com.au). Alternatively, contact us on **(08) 6254 2408** or email [info@air-stream.com.au](mailto:info@air-stream.com.au)
